DETAILED ACTION

Allowable Subject Matter

2. Claims 15,16 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claims 15,16, The prior art of record considered alone or in combination neither anticipates nor renders obvious a method for generating a tear down report based on call-specific data obtained in a wireless network, said method comprising: receiving as input a Corsair Phoneprint data file including said call-specific data; feeding said data file to a thematic mapping software program.

The prior art of record provided numerous teachings of a tear down report based on call-specific data obtained in a wireless network. However, the prior art of record failed to specifically disclose a method for generating a tear down report based on call-specific data obtained in a wireless network, said method comprising: receiving as input a Corsair Phoneprint data file including said call-specific data; feeding said data file to a thematic mapping software program; and generating a graphical representation of said data file with said mapping software program, wherein said generating a graphical representation is performed on a periodic basis selected from the group consisting of weekly, biweekly, monthly, and quarterly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
